SUMMARY

A passionate Computer & Systems Engineering student with a strong foundation in both scalable software architecture and hardware control systems. Experienced in building robust Full-Stack web applications using PHP/Laravel and tuning embedded control algorithms. Dedicated to bridging the gap between hardware and software to deliver elegant and efficient solutions.

EDUCATION

B.Sc. in Computer & Systems Engineering | Zagazig University 2022 – Present (Expected Graduation: 2027)

- **Current Grade:** Excellent
- **Relevant Coursework:** Data Structures, Algorithms, Software Engineering, Microprocessors, Control Systems, Database Management

SKILLS

Software & Web:

PHP, Laravel, MySQL, JavaScript, HTML/CSS, TailwindCSS, Bootstrap, Python, Java/JavaFX.

Hardware & Systems:

C/C++, Embedded Systems, Arduino, PID Control, VHDL(Hardware Description Language).

Tools & OS:

Git, GitHub, Linux CLI.

Soft Skills

- Problem Solving
- Team Collaboration
- Time Management
- Continuous Learning

LANGUAGES

- **Arabic:** Native / Mother Tongue
- **English:** Very Good

PROJECTS

Xero Office E-Commerce

PHP, Laravel, TailwindCSS, MySQL

- Developed a comprehensive, high-performance e-commerce platform from scratch.
- Implemented Google OAuth 2.0, automated SMTP emails, and end-to-end checkout.
- Built a real-time analytics engine (Chart.js) and a smart inventory tracking system with automated alerts.

Simple Blog

PHP, Laravel, Bootstrap

- Built a modern blog application featuring secure user authentication, authorization, and full CRUD operations with relational database

EXPERIENCE & TRAINING

Winter Trainee | Information Technology Institute (ITI) Feb 2026

- Completed an intensive training program focused on PHP Laravel Full-Stack development, MVC architecture, and modern web deployment.

Training Intern | National Telecommunication Institute (NTI) July 2025

- Gained hands-on experience in Full-Stack development using PHP/Laravel and RESTful API creation.
- Developed professional soft skills and agile workflow methodologies.

Field Trainee | Canal Company for Electricity Distribution Aug 2025 – Sep 2025

- Assisted in electrical grid management and distribution system control.
- Applied theoretical engineering concepts to real-world infrastructure problems.
